Mental health services are provided to adults and older adults with serious mental illness.

Medi-Cal and/or Medicare recipients experiencing mental health problems that disrupt or interfere with daily living may be eligible for low cost, confidential counseling and psychiatric services.

Services include individual and group counseling on a time limited basis, as well as medication assessment, administration and education at a county operated Short-Doyle Clinic or contracted community agency. Services are provided at a selected number of local community counseling agencies throughout the county.

To receive counseling services or more information, please call the Mental Health Call Center at 1-800-704-0900.

The mission of the Mental Health Department is to enable individuals in our community affected by mental illness and serious emotional disturbance to achieve the highest quality of life. To accomplish this, services must be delivered in the least restrictive, most accessible environment within a coordinated system of care respectful of a person's family, language and culture.
