The **Therapeutic Behavioral Services** program (TBS) targets **children and youth** whose **behavior is severe enough to risk losing placement or hospitalization**. Services include:

- **Intensive short term treatment** (approximately 10 hours a week)
- **Community-based services** (sessions take place at client's home, school, or other community site as needed)
- **Behavior modification** (including goal setting, behavior plans, incentive programs, on-the-spot behavior modification assistance)
- **Support for the child/youth and their family**
- **Work with the child/youth and the family and other support persons**
- **Collaboration with client's primary mental health provider**
- **Cultural competent services** (provided in both Spanish and English)
