In partnership with FIRST 5 Santa Clara County, Inclusion Collaborative, and other community organizations, we are dedicated to supporting the healthy development of children ages Prenatal to 5 years. As an integral partner of the KidConnections Network of Care, we will collaborate with our partners to develop a shared strengths-based and culturally sensitive understanding of a child's development and behavior and translate such understanding into responsive action.

The **Mental Health Department Call Center** bridges children ages Prenatal to 5 years and their families to critical and necessary services that would support their optimal growth and development. Through highly skilled clinicians, referrals will be triaged, and the developmental and socio-emotional needs of children will be identified. They will make essential linkages to services and resources that will promote the establishment of safe loving relationships and stable and secure home environments.
