Parisi House on the Hill

Website: <http://parisihouse.com/>

Parisi House on the Hill (Parisi House) is Santa Clara County's first mother-and-child residential alcohol and drug treatment facility, allowing mothers to focus on their six-month treatment program without the emotional distraction caused when separated from their child. Parisi House provides living facilities for 20 mothers and 22 children (up to age 5) who have made the choice to end the cycle of substance abuse.

Our unique evidence-based programs not only address the specific needs of recovery, we value the unification of women and their children and understand the effects of addiction on the entire family. Our unique child-inclusion treatment program aims to enhance a child's sense of trust and bonding, while simultaneously supporting a recovering mother's confidence through hands-on parenting success.
