Total	1,682,585	100%	16,790 (1%)	100%	19,727 (1.17%)	100%	+2,937	

WHO are we serving? Unicare includes only clients served by the Mental Health Department, including contract agencies. It does not include the mental health clients served by the Federally Qualified Health Clinics of Milpitas, East Valley, Fair Oaks, Alexian Brothers and Gilroy. A separate report will be provided pertaining to the FQHC clinics.

WHO are we reaching? Unicare clients are shown as the percentage of the US Census population that are served by Mental Health Clients. However, the County Mental Health system is the provider for the Medi-cal Population. A separate report will be provided that illustrates the penetration of the mental health system into the Medi-Cal population.

Pertaining to Unicare Clients Trends

Initial information indicates when considering the total Santa Clara County population, the Mental Health System, with the exclusion of the FQHC clinics, does serve a smaller portion in the over 60 years age groups.

In addition, the trend between FY 2008 and FY 2012 is a decrease in the over 60 years of age client groups served. However, the 40-59 age groups have experienced a greater decrease, while the 0-39 client age groups have increased, with the greatest increase in the 0-19 age group.

A separate report will provide the analysis of the causes of the trends between FY 2008 and 2012.
